### **DETAILED ACTION**

1. This communication is responsive to RCE, filed 10/19/2005.
2. Claims 2, 3, 5, and 8-11 are pending in this application. Claims 5, 9, and 10 are independent claims. In this amendment, claims 1, 4, 6, and 7 are canceled, claims 2 and 5 are amended, and claims 8-11 are added.

### ***Election/Restrictions***

3. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 2, 3, 5 and 8, drawn to downloading remote executables and pull down sub-menu structure, classified in class 715, subclass 841 and 749.
  - II. Claims 9-11, drawn to partial string lookup, classified in class 715, subclass 816.
4. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as downloading remote executables and pull down sub-menu structure; and invention II has separate utility such as partial string lookup. See MPEP § 806.05(d).

5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

6. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

7. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

8. A telephone call was made to Attorney Jeffrey Pearce on Dec. 19, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made because the Attorney failed to return the call.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nhon (Gary) D. Nguyen whose telephone number is (571)272-4139. The examiner can normally be reached on Monday - Friday with every other Monday off.
